

“RELIABILITY”

Your Ice is only as Reliable as the Equipment making it!

E3:ICE

Innovative Chiller Equipment

Innovative Chiller Equipment that is ...

E3:

- ❖ *Energy Efficient*
- ❖ *Environmentally Friendly*
- ❖ *Economically Smart*

*35 Years of Reliable Custom Engineered
Refrigeration Equipment and Service*

www.tempest-eng.com

Custom chiller solutions designed for your specific ice arena application. The system targets lowering your operating costs through energy efficiency measures.

Tempest has been producing refrigeration and heat transfer equipment for 35 years. We specialize in Environmentally Friendly Chiller Solutions. We offer a wide range of options to meet your functional and performance requirements.

Whether you are looking for a Flooded Ammonia or Direct Expansion HFC Solution, Tempest has the right E3:ICE chiller configuration for your needs.

E3:ICE-FA

FLOODED AMMONIA CHILLERS

Flooded evaporator system with the referred environmentally friendly refrigerant.

E3:ICE-DE

DIRECT EXPANSION HFC CHILLERS

Direct Expansion system with environmentally friendly HFC (Hydrofluorocarbon) refrigerant

Standard Systems or Custom Engineered to Specific Ice Arena

30 PLUS YEAR LIFE EXPECTANCY

UP TO 50% LESS ENERGY USAGE

INDUSTRY LEADING 1-2-3 YEAR WARRANTY

REMOTE OPERATIONAL MONITORING/TROUBLESHOOTING

Energy & Water Conservation Options

- ❖ Heat Recovery for Sub-floor heating
- ❖ Heat Recovery for Snow Melt Pit
- ❖ Heat Recovery for HVAC & Hot Water
- ❖ VFD's for evaporative condenser fan
- ❖ VFD's for glycol rink pump(s)
- ❖ Leak detection with safety shutoff
- ❖ Ice Melt Water Recovery for Evaporative Condenser or Cooling Tower
